

State and national benchmarks for MA & PDP CAHPS survey, 2021 - final

Note: Data are weighted to reflect state enrollment of each contract. States are omitted if the effective sample size for estimation of a state mean is less than 350. Effective sample size equals the nominal sample size/design effect (Kish, 1965).
 Effective sample size Estimates on the 0-100 scale are rounded to the nearest point

State Name	Care Coordination		Customer Service		Getting Appointments and Care Quickly		Getting Needed Care		Annual Flu Vaccine		Getting Needed Prescription Drugs		Rating of Drug Plan		Rating of Health Care Quality		Rating of Health Plan	
	State mean, original scale	State mean, 0-100 scale	State mean, original scale	State mean, 0-100 scale	State mean, original scale	State mean, 0-100 scale	State mean, original scale	State mean, 0-100 scale	State mean, original scale	State mean, 0-100 scale	State mean, original scale	State mean, 0-100 scale	State mean, original scale	State mean, 0-100 scale	State mean, original scale	State mean, 0-100 scale	State mean, original scale	State mean, 0-100 scale

*Benchmarks for the "Rate Plan" item in FFS are not comparable to MA because the item is different (rating of Medicare rather than of an MA contract).
